The CIA sought to retrieve codebooks, nuclear missiles, and other intelligence materials, enlisting Hughes and the vessel *Glomar Explorer* as part of an elaborate cover story. This program examines the political maneuvering, technical challenges, and ultimate outcome of what was then the most expensive and ambitious operation undertaken by the CIA. We will also consider Hughes's life and business empire, including his leadership of TWA and RKO, and his transformation from a young heir to one of the most enigmatic figures in American business history. Join us on a cross between a Cold War thriller and an American business titan.

LONG ISLAND AND THE LEGACY OF EUGENICS: STATION OF INTOLERANCE WITH AUTHOR MARK A. TORRES

Thursday, October 1 • 10 a.m. – 12 noon

Instructor: Mark A. Torres

Course Number: 3999 • Fee: \$34

Location: Lorber Hall

In the early 20th century, eugenics was at the forefront of scientific discourse in the quest to understand human genetics. On Long Island and throughout the nation, eugenicists were granted unfettered access to conduct experiments on prisoners, psychiatric patients, Coney Island circus performers, and at Native American reservations—all in an effort to legitimize a false science. The origins of the eugenics movement can be found in the Eugenics Record Office, an otherwise nondescript administrative building at Cold Spring Harbor, Long Island, NY, under the direction of Charles Benedict Davenport, from 1910 to 1939. The work conducted there directly led to the forced sterilization of thousands of American citizens, the passage of anti-immigration laws, and sparked a deadly global movement that directly inspired the Nazi regime to commit heinous acts under the banner of eugenics. Author, historian, and Professor

Mark Torres will discuss the local characters, influences, landmarks, and ghastly consequences that emanated from this small Long Island facility for decades and spread throughout the world. Professor Torres will have books available for purchase.

Mark Torres is an attorney for the Teamsters union and an Adjunct Professor of Labor Studies at Hofstra University. Mr. Torres is also a historian and an award-winning author of several books, including *Long Island Migrant Labor Camps: Dust for Blood* (for which he was the recipient of the Joseph F. Meany Award by the Association of Public Historians of New York State for Excellence in a Labor History Publication) and the newly released *Long Island and the Legacy of Eugenics: Station of Intolerance* (History Press, 2025). Mr. Torres has a Law Degree from Fordham University and a Bachelor's Degree in History from New York University.

CELEBRATE THE SEASON WITH *EVERGREEN: THE TREES THAT SHAPED AMERICA* WITH AUTHOR TRENT PRESZLER

Think you know Christmas trees? Trent Preszler peeks beneath the tinsel and reveals facts you never knew, including how evergreens shaped America.

Thursday, December 10 • 10:30 – 12 noon

Instructor: Trent Preszler

Course Number: 4062 • **Fee:** \$34

Location: The Roosevelt House

Celebrate the season with a special December Author Spotlight featuring *Evergreen: The Trees That Shaped America* by Trent Preszler. As winter settles in and evergreens take on their symbolic presence in homes and public spaces, Preszler invites us to look more closely at the trees that have quietly shaped the American landscape, economy, and imagination.

Drawing on history, science, and cultural storytelling, he explores how trees such as pine, spruce, and fir became woven into our national identity and seasonal traditions. This timely conversation will move beyond botany to examine conservation, craftsmanship, memory, and the enduring meaning of the natural world in American life.

Join us for a thoughtful, holiday-season gathering that blends history, environmental insight, and cultural reflection, followed by audience questions and a book signing.

Trent Preszler is a professor of practice at the Dyson School of Applied Economics and Management at Cornell University and director of the Henry David Thoreau Foundation’s Planetary Solutions Initiative. His first book, *Little and Often: A Memoir*, hit #1 on the Amazon Books bestseller list and was named a USA Today Best Book of the Year in 2021. His second book, *Evergreen: The Trees That Shaped America*, was longlisted for the 2026 PEN/E. O. Wilson Literary Science Writing Award. Preszler grew up on a cattle ranch in South Dakota and attended a one-room schoolhouse on

the Standing Rock Sioux Reservation. After college at Iowa State University, he served as a White House intern for President Bill Clinton. He holds an M.S. in agricultural economics and a Ph.D. in horticultural biology from Cornell University. A former winemaker and wooden boatbuilder, Preszler’s life was profiled in a documentary that won a New York Emmy Award in 2017.

When Hitler became Chancellor in 1933, did he already plan genocide, or did events and opportunities shape the path that followed? What role did global indifference, the response to *Kristallnacht*, and the policies of European nations play in emboldening the Nazi regime? Join Alan A. GENERATIONS RE-DEFINED

Monday, September 14 • 1:30 – 3:30 p.m.

Instructor: Neil Pinsker

Course Number: 3989 • Fee: \$34

"BRING A FAMILY MEMBER OR FRIEND ON US"

Demographers typically define seven generations: the Greatest Generation (1905–1928), Silent Generation (1929–1945), Baby Boomers (1946–1964), Generation X (1965–1981), Millennials (1982–1996), Generation Z (1997–2012), and Generation Alpha (2013+). But do these broad categories truly capture shared experiences? Does someone born in the late 1940s have the same perspective as someone born in the early 1960s, even though both are labeled Baby Boomers? *Generations Re-Defined* offers a fresh perspective by breaking these traditional groups into 13 "micro-generations," shaped by the defining events and cultural influences experienced during our formative years, roughly ages 16 to 24. These influences include:

- Presidential elections
- Wars and global conflicts
- Major social movements
- Technological innovations
- Economic shifts
- Music and popular culture

Take a walk down memory lane while gaining new insight into how historical moments shape identity. Through engaging discussion and carefully selected audio-visual clips, participants will revisit pivotal events such as the assassination of John F. Kennedy, President Lyndon B. Johnson's escalation of the Vietnam War, and the fall of the Berlin Wall. **Bring a guest for free!** Call 516-299-2580 to reserve their seat.

THE HISTORY OF LORBER HALL

Hutton House classes are held at Lorber Hall, located on the south end of LIU Post Campus.

Lorber Hall was built in 1927 for H.W. Lowe. Architect John Russell Pope designed the mansion in a composite of New England and Mid-Atlantic Federal forms. A cornerstone located on an upper section of the rear of Lorber Hall declares that the house was built in 1927 after another house in the same location was destroyed by fire in 1926. Financier William E. Hutton II (second cousin of E.F. Hutton of Wall Street brokerage fame) purchased the mansion and its 26 acres in 1940. The Hutton's named the estate "Mariemont."

Edward F. Hutton purchased the house directly east of "Mariemont" around 1936, currently the Roosevelt House. Cereal heiress Marjorie Merriweather Post, who had been his second wife, purchased "Mariemont" from the Hutton's in 1965 for \$400,000, which is now the site of Long Island University. The house was renamed Hutton House by the University and became the home of the Hutton House Lectures series.

Thanks to the generosity of Howard M. Lorber, CEO of Nathan's Famous, Inc. and Chairman Hallman & Lorber Associates, Inc., the building was restored to its original magnificence during a three-year period from 1997-2000.

Monday, December 7 • 1:30 – 3:30 p.m.

Instructor: Glenn Andreiev

Course Number: 2346 • Fee: \$34

"BRING A FAMILY MEMBER OR FRIEND ON US"

"Whatever it is, I'm against it!" once declared the great Groucho Marx. From 1929 to 1949, the Marx Brothers were one of Hollywood's most wildly inventive comedy teams. Their classic films, including *Horse Feathers*, *Duck Soup*, and *A Night at the Opera*, delighted audiences while poking fun at wealth, authority, and social conventions. Groucho was the king of the quick insult, Chico brought musical skill and clever wordplay, and Harpo created unforgettable chaos with his silent antics and expressive style. Even Zeppo, the straight man, added his own subtle presence to the group. Film historian Glenn Andreiev brings the Marx Brothers to life with rare facts, film clips, and behind-the-scenes insights. And yes, Margaret Dumont, often called the "fifth Marx Brother," is sure to get her share of the laughs. Plus, there will be a rare film clip with all four Marx Brothers. **Bring a guest for free! Instructor: Jeffrey Norwood

Course Number: 5903 • Fee: \$34

Tchaikovsky's *Symphony No. 6 in B minor, Op. 74*, known as the *Pathétique*, is a groundbreaking work that challenged the conventions of the symphonic form. Composed and premiered in 1893, just days before the composer's death, it is often interpreted as a deeply personal and autobiographical statement. Tchaikovsky described the work as a "program symphony" but chose not to reveal its narrative. Many scholars view it as a reflection of his inner life, including struggles with identity and emotional turmoil. Once considered a "suicide note," the symphony is now understood as a profound and innovative exploration of form, emotion, and expression. **Note: This is a hybrid class.** Students may attend in person or online.

FRIDAY – ONLINE

TCHAIKOVSKY'S *PATHÉTIQUE*: MUSIC, MYSTERY, AND MEANING

Friday, September 4 • 1 – 3 p.m. EST

Instructor: Jeffrey Norwood

Course Number: 5904 • Fee: \$34

Tchaikovsky's *Symphony No. 6 in B minor, Op. 74*, known as the *Pathétique*, is a groundbreaking work that challenged the conventions of the symphonic form. Composed and premiered in 1893, just days before the composer's death, it is often interpreted as a deeply personal and autobiographical statement. Tchaikovsky described the work as a "program symphony" but chose not to reveal its narrative. Many scholars view it as a reflection of his inner life, including struggles with identity and emotional turmoil. Once considered a "suicide note," the symphony is now understood as a profound and innovative exploration of form, emotion, and expression.

BORIS GODUNOV: POWER, GUILT, AND THE RUSSIAN SOUL

Friday, October 9 • 1 – 3 p.m. EST

Instructor: Jeffrey Norwood

Course Number: 2359 • Fee: \$34

Modest Mussorgsky's *Boris Godunov* (1868–1873) stands as one of the great masterpieces of Russian opera. Set during the turbulent years of 1598–1605, the work portrays the psychological conflict of Tsar Boris as he struggles with guilt and the burden of power. The opera features powerful choruses and dramatic monologues, balancing large-scale public scenes with intimate moments of personal anguish. With its focus on the suffering of the Russian people and its break from Western European traditions, *Boris Godunov* established a distinctly Russian voice in opera.

MAHLER'S WUNDERHORN YEARS: FROM SONG TO SYMPHONY

Friday, November 6 • 1 – 3 p.m. EST

Instructor: Jeffrey Norwood

Course Number: 5899 • Fee: \$34

Mahler's "Wunderhorn" symphonies, Nos. 2, 3, and 4, are shaped by their deep thematic, melodic, and structural connections to the folk poetry collection *Des Knaben Wunderhorn* (The Youth's Magic Horn). Mahler's settings of these poems, composed between 1887 and 1901, form the creative foundation of his early symphonic works. These symphonies blend folk-inspired imagery with sophisticated orchestration, creating a distinctive musical world that moves between innocence and existential reflection. They represent a crucial stage in Mahler's development of the expansive, emotionally rich symphonic form. **Note: This is a hybrid class.** Students can register to attend in-person or online.
